MEDICAL ASSESSMENT AND EVALUATION OF  
JPARC CANDIDATE (Phase 2)

CARLOS EDUARDO HERNANDEZ SANCHEZ No. 2523

This 20 year old, 5' 8", 180 lb. candidate gives a history of a grandmother who exhibits exacerbations of a mental disorder for the past 10 - 15 years. He experienced "bed wetting" up to 10-12 years of age and has a history of more than the usual amount of "nightmares". He admits to having discussed some personal problems with a psychiatrist friend for over a year. He has a "black belt" in Judo. On examination he was found to be somewhat obese and have minor hemorrhoids with no active bleeding. His B.P. was normal but his pulse was somewhat rapid (90) for a supposed athletic type. He also has a minor vision deficiency (20/30).

Recommendation:

Physically, he seems in good condition except for being somewhat out of shape and overweight for his height/ and age. He doesn't strike me as the leader type but could be a good follower in the action phase of the program.

Polygraph Interview Results -- Subject No. 2523

No. 2523 was afforded a Polygraph Test on 29 May 1960. Testing was conducted in the English language.

The test covered routine security questions checking Subject's bona fides, vulnerability to blackmail, possible communist sympathies, possible intelligence background or connections and overall truthfulness of biographic statements. Specific questions covering possible engagement in homosexual activities were included during testing subsequent to admissions by subject that he at age 17-18 feared homosexual tendencies.

Results:

Analysis of the test indicates no apparent attempts at deception by Subject. to the relevant test questions. Subject does not appear to have actually engaged in any homosexual acts. There were no responses indicative to deception regarding homosexual activity.

# 2523

Carlos Hernandez

Date of Interview : May 24, 1960

This twenty year old accounting student at Havana University University is the only son and first child of a marriage which has been greatly complicated by the father's emotional illness. This has been apparent in the father's never having worked in his life although he possessed a university education. Apparently the father was completely dominated by his mother ; the subject and his parents live in the grandmother's household even now. Some years ago the father became quite depressed and was treated with shock therapy in a Havana Sanitarium. The son in his childhood was much closer to his mother and did not understand his father because of his eccentric behavior and continual sickness. A very agreeable child, the subject seems to have strived hard to conform to an unstable father's wishes and in so doing has become more passive than he wishes to be. He tends to prefer solitary tasks and work involving meticulous details (e.g., accounting). His sexual life has been quite troublesome and has led to his seeking psychiatric treatment in Havana during the year prior to his leaving that city because of his homosexual feelings. He feels that conflicts in regard to this tendency have now been satisfactorily resolved but he believes that he could benefit from seeing the psychiatrist again for a few times upon his return to Cuba. He apparently has worked diligently in ~~his~~ the present political struggle and was especially close to Arttime following Castro's change toward Communist policies.

This young man is quite serious and apparently has more than the usual amount of anxiety symptoms. He is somewhat ill at ease in the interview situation and discussed his father with obvious difficulty during ~~his~~ his description of his father's illness. He attempts to avoid the problem of his sexual conflicts but following some prodding he hesitatingly relates much of his trouble in this area. He apparently has not resolved early parent~~ly~~ conflicts even after a year of psychotherapy and this writer questions how well the problem of homosexuality has been resolved. Although there is no obvious thinking difficulty apparent here the subject's feelings of guilt and frustration would tend to cause him to react with a certain amount of depression to extreme stress.

Impression: A somewhat less than satisfactory emotional integration with tendencies toward homosexuality and depressive feelings.

A young man who has experienced much childhood emotional trauma with resultant continued guilt feelings toward his parents and poorly understood sexual urges.

Recommend: This man should not be subjected to great stress. He probably would function best as a communicator in an area not exposed to direct hostility.

## AT&E Psychological Assessment of 2523

2523 is a generally bright, intelligent, and energetic individual, who has intellectual and abilities very effectively. Although he is hard-driving, energetic and vigorous, he is apt to be somewhat careful, slow and cautious in his approach to new problems. Once he has decided upon a course of action, he would be expected to be very determined to carry it out even though it may not be to his liking.

2523 is a "natural leader" type. For any dominant, competing, he assumes a leadership role by attempting to excel in competence - those who are going to lead. He has the "black belt" in Judo and at 16 years of age and being a winner at auto racing have been important to him in gaining recognition and status.

2523

2523 is primarily making up the  
one of contrasts. Although he has  
the outgoing, dominant characteristics  
characteristics described in the graph  
above, much of this is a facade  
for the opposite attributes and temper-  
ment. He sees himself as an individual  
who basically has a great liking  
for solitary activities where he can  
concentrate intently on something that  
interests him. He can find him negotiating  
in accounting and economics at the  
University. He also does not see himself  
as a confident person yet he radiates  
self confidence and outgoingness. He  
does not see himself as particularly  
strong in taking responsibility ~~for~~  
for other people or being a leader.  
Yet he attracts others and he is  
continuously surrounded by people.  
However in his contact with others, he  
tends to be extremely dependent  
upon the status or role — primarily  
at present upon his guide role.

(2)

2523

He is not particularly strong on planning, analyzing and organizing activities and does not aspire for leadership. He requires these types of abilities. He would be most comfortable with small groups where he can exert his personal control over its members in the face-to-face situation. Such a situation permits him to feel the confidence and respect of others better than responsibilities above or outside the small group.

2523 would also expect those giving him orders in a military situation to be mature-leader types. If they do not ~~give~~ meet his standards in this regard, and give him freedom to carry out the responsibilities assigned to him, he would be expected to give them trouble.

2523 does not have any skills or training that would qualify him as a potential P.P. officer. He has done no

63(4) - 2523

working on justice system and does  
no direct along these lines. He  
is an important man in the intellectual  
or theoretical problems.

In conclusion, 2523 appears  
highly qualified for either contingency  
or cadre assignment. His strong  
and vigorous action orientation and  
physical powers and his under-  
ground experience in Cuba make  
the contingency assignment first  
choice. He probably would not  
be content to remain long on  
a cadre assignment. He is  
a "professor" of sorts but reports  
that he does not like instructing  
for a prolonged period of time.

Note: DIR Departamento de Investigaciones Revolucionarias (Police Investigation Service)

Comandante Raul Diaz Arguallas (pertenecia al Directorio Revolucionario) was the Director of the DIR. Subject had been detained by Amejinas, Chief of Police, and Diaz Arguallas let him and his friends leave the country possibly in gratitude for some work that they had done for the Directorio Revolucionario.

Departure from Airport: Subject had applied for his exit permit at a travel agency. Instead of going back himself to the agency to pick up his passport and exit permit he first sent a friend to see whether the coast was clear. Having been assured that no one was waiting to arrest him he picked up his documents. He went to the airport with two friends where they were arrested - they were later released and left on a later flight.

Exiting Cuba with forged Documents: Subject believed that the best way for a person who is probably on a watch list to get out of Cuba is with the use of forged Cuban passport and exit permit (Vigencia). Equipped with these items he would encounter no trouble in obtaining airline reservations. The name selected would probably have to be uncommon in order to avoid the chance that it might appear on a check list. Previous travel before the success of the revolution might give more life to the passport. He believes that there is a 70% chance of leaving safely with this method, provided, of course, there is no problem of physical recognition.

For a Cuban to enter the country clandestinely the subject believes that a passport other than Cuban would be more desirable.

SOURCE: 8583 (cont)

There are so many controller security groups (some in the hands of communists and some not) that it is almost impossible that a person's name would appear on the wanted list of all the different security forces.

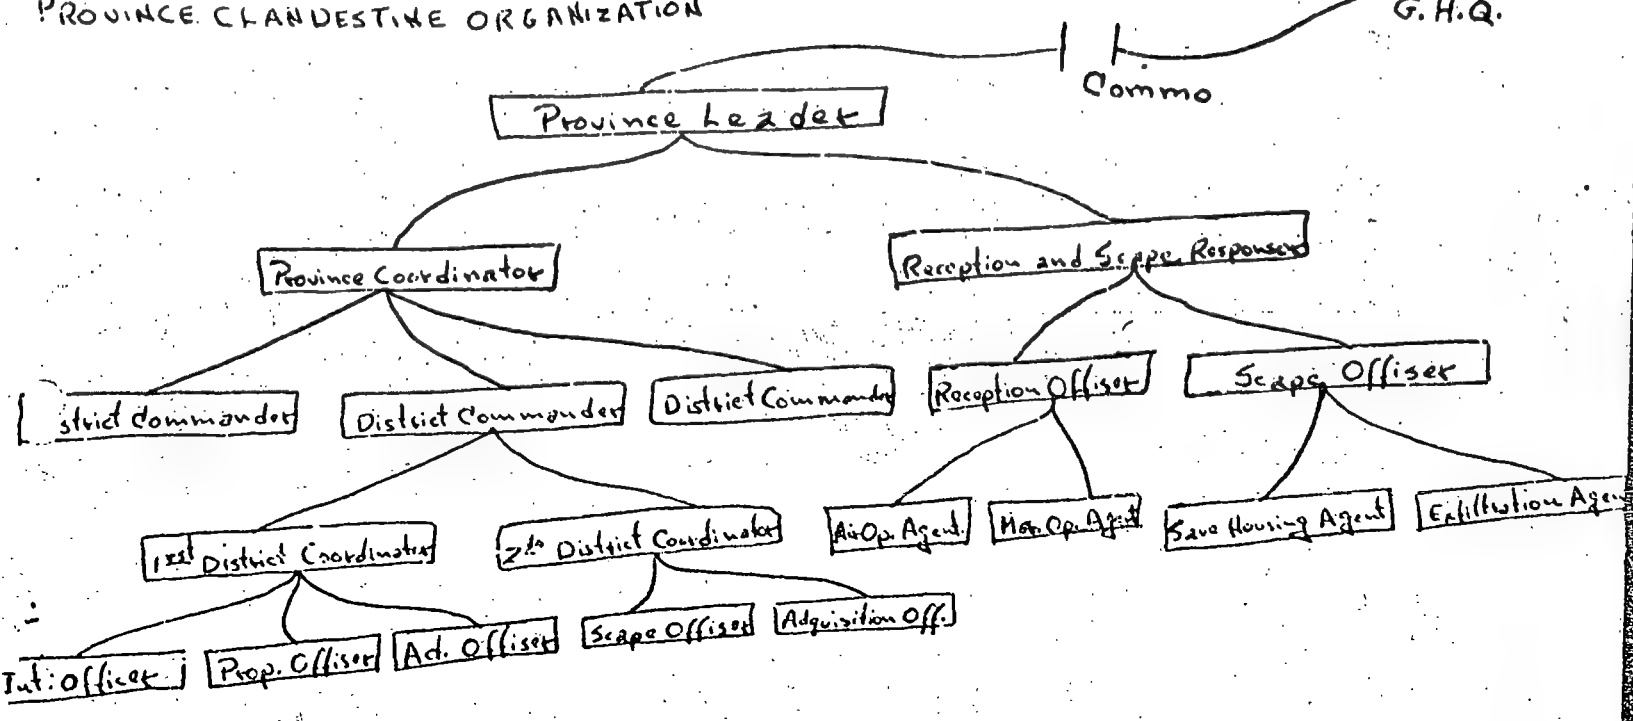

The best Cuban passport for exiting would be one issued in Batista's time because it would be harder to check the records than it would be for Castro's authorities to check their own records. It would not be as desirable to use a foreign passport because, although aliens do not normally undergo a double check against their arrival upon leaving there always exists the danger that this might occur. The use of a Cuban passport would not run this risk.

Subject strongly believes that in the problem of physical recognition, disguise is no great problem and should be used.

----- LEADERSHIP

CLANDESTINE "ORGANIZATION OF HABANA"

Being appointed leader of Havana Province my plans to organize my staff and nets are the following. I would contact the G.H.Q. through out my - common and also by means settled before.

The staff would be composed by a Province coordinator and a Receptions and Escape responsible. Each one will be my connections to the rest of the organization.

We will sub-divide the city in districts or zones each with a district responsible or district commander.

Each district net will have two district coordinators who will be responsible before the district commander.

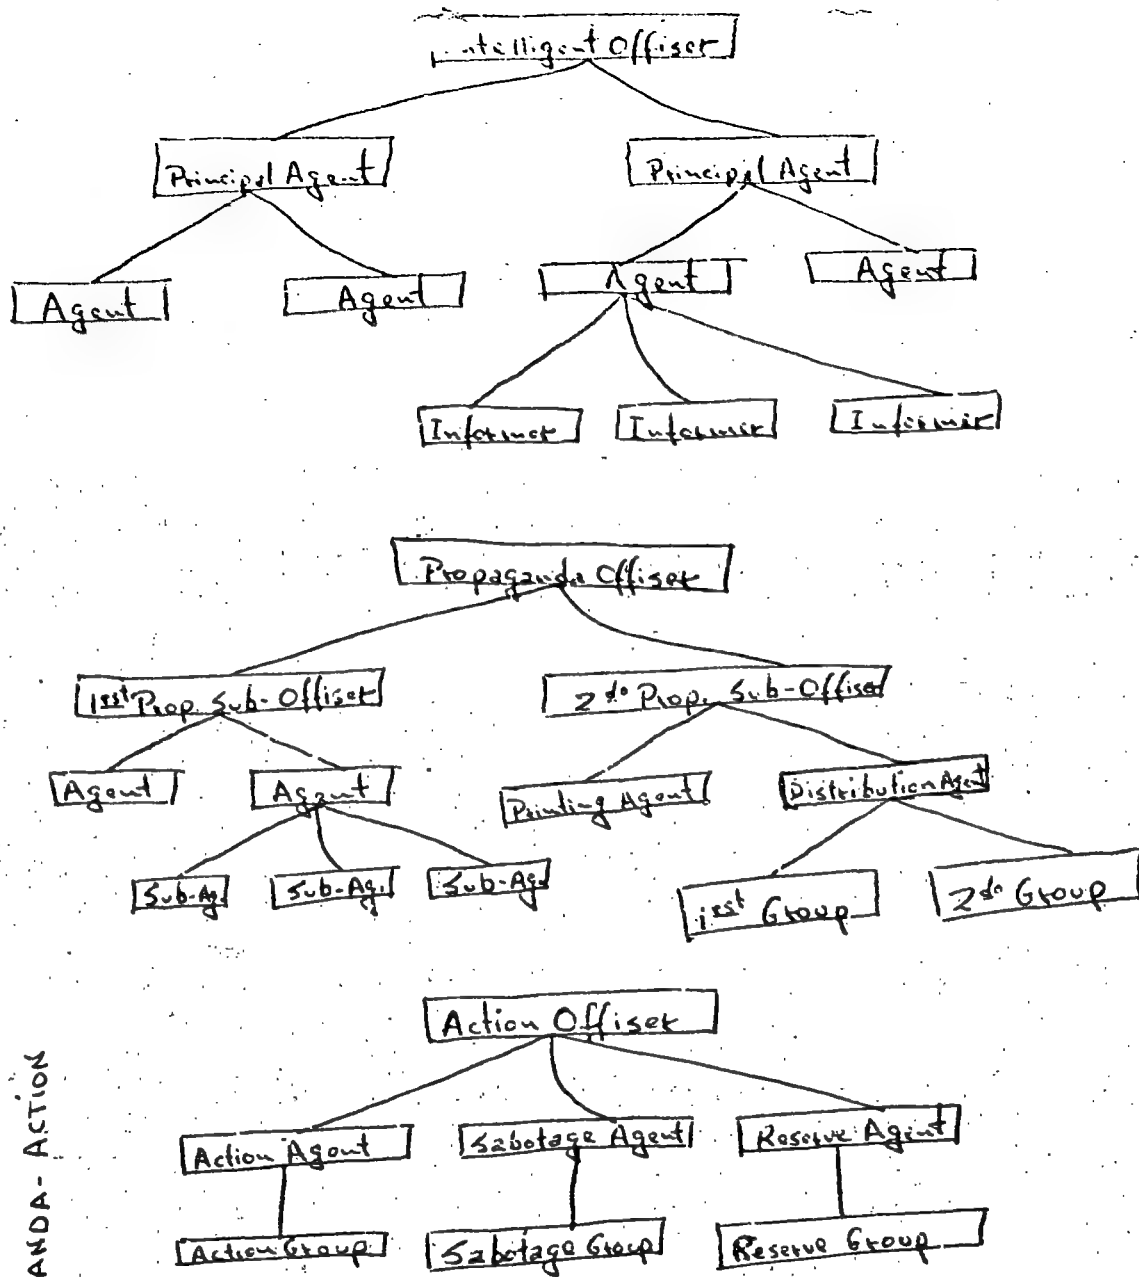

The No. 1 district coordinator will also have a staff composed by a Propaganda Officer, an Intelligence Officer and an Action Officer. Each function of this three officer above will be explained in the following pages .

The No. 2 District Coordinator will be responsible for the Escape and - Acquisition with an officer of each responsible of his function.

The Escape Officer will have several safe houses to hide an agent in -- trouble untill the Province's Escape Officer on take him out.

The acquisition Officer has to be a trusted man his function is to spot, investigate and talk to the prospects to join the organization , he will also check the whole net to check any infiltration in it. Actually will be our counter-intelligence.

This Net will act as the communist organization does the 1st. district coordinate net as blocks, and is the most important of both.

INTELLIGENT-PROPAGANDA-ACTION

"INTELLIGENCE NET"

In each district the No. 1 coordinator will have an Intelligence Officer which will have 2 Intelligence P.A. Each P.A. will have his own nets of at least 2 Agents and this agents at the same time will have as many sub-agents as necessary. The intelligence reports will go as high as the Province leader. The reason behind this division is if the zone is a hg one it can be divided into two sub-zones and gather more information about all kinds of targets also is a great help to compotimentation. Also it will gather information needed by the G.H.Q.

"PROPAGANDA NET"

The propaganda officer appointed by the zone commander will have two Propaganda sub-officer. The No.1 Sub-officer will have in his net - two agents with each as many as sub-agents as needed.

This information will go to the Propaganda Officer and the Province Leader.

This net will gather all information related to our propaganda and - his needs like. How does the people like our Propaganda? Its. effectiveness? Intelligence level of the district - data to be raised in our propaganda etc. (Essential Elements of Information).

When the propaganda is planned and designed it will go to the Prov. Officer which at the same time will be handled to the 2nd sub-officer which will give it to the Printing Agent that has the machinery, place and personnel to work it.

After the propaganda being printed he will be delivered to the sub-officer with then will be handled it to the Distribution Officer, That will distribute it through out his nets. This nets will be separated and compartmentated.

This is done by districts on account of security and compartmentation because this way. I will never lose my whole propaganda net.

"ACTION NET"

The Action Officer will have a staff composed by an Action Agent, a Sabotage Agent. Each one with as many nets as necessary.

When the approval of an action comes will go to the Action leader and he will handle it to the Action Agent or Sabotage Agent in each case. They will check and do the action.

The Reserve Officer will gather the personal available that is not in only other net to replace any personal missing or captures and also be prepared with this men for the "D" day to go out in the streets for the final battle.

Note: Action is separated from Sabotage by psychologically the action men is different that the sabotage men,

RECEPTION & ESCAPE NET

The Reception & Escape responsible will have a Reception Officer, and an Escape Officer.

The reception officer will appoint an Air Ops. Agent and a Maritime Ops. Agents

The Air Ops. Agent will have at least two Reception committees teams to handle air ops.

The Maritime Ops Agent will also form his teams to handle the Sea ops. - There are two teams so we can handle as much operations as possible and also be compartmentated.

The Escape Officer will have an Agent responsible for the safe houses so we can hide our agents in danger.

The other agent will be an exfiltration agent and will have his ways to get out the personnel of the province by all means including the contacts to send him the bells.

When an agent is in danger is hidden by the district escape officer who turns it to the province escape officer which turns it to the exfiltration officer when the time comes to be exfiltrated.

Members of Communist Party: (Divided into two groups - the old and the new.)

Old Members:

MATINELLO, Juan: Founder and chief of the Party. An individual of good position, he entered the Party out of frustration. He has been to the Soviet Union several times and is one of the big intellectuals of America (continent).

ORDOKI: Principal figure in the party's first days. Was even a member of the Comintern in the U.S.R. At the moment he is very much in the shadows and does not appear in anything official, but it is well-known that behind the scenes he is an important figure.

LAZARO Pena: Leader of the workers (C.T.C.) during Batista reign, and "Delivered" them to the dictator. It is said that it is he who actually manipulates David SALVADOR.

BBAS, Roca: Minister w/o portfolio during the first term of Batista. Communist from the beginning.

RODRIGUEZ, Carlos Rafael: Number 1 Communist intellectual of Cuba. He is a newer Communist than the others so far mentioned, having joined in late 1938 or early 1939. He is the counsellor of Fidel and Che. He has a document which allows him to enter any government office he chooses.

New Members:

CASTRO, Raul: Chief of the Armed Forces.

GUEVARA, Che: Director of the RAPO NACIONAL.

SARDINAS, Lalo: Chief of the Tiendas del Pueblo.

GARCIA, Calixto: Military Chief of Oriente.

ESCALONA, Defunidio: Military Chief of Pinar del Rio.

KUNEZ, Jimenez: Director of INRA.

SANTOS, Pinos: Chief of the economists of INRA.

SANTOS, Rios: Chief of Agriculture of INRA.

RAMI, Jose: 21 years of age. Member of the A.C.U. (Acción Católica Universitaria). However, he feels very closed in there. It is felt that he might be an informant and hence is being surveilled by the A. C. U.

de la CONCEPCION, Octavio (Tavito): 23 years of age, fought in the Second East Front "Frank PATON", and was a lieutenant. A good person. but according to most recent reports there is some suspicion.

LANDA, Alberto: "Communist" who was a member of the Caballeros de Colon (Catholic organization) and who at the moment acts like a Communist. This individual lives a block from my home (in 21 almost at the corner of 14). He tried to steal my pistol on the grounds that he was of the G-2. I talked to him about the rural commandos w/o knowing that he was a Communist. It is possible that he gave a report to the Party based on his conversations with me. He is an individual of second category who I believe is capable of doing anything to rise in the ranks or to get ahead.

DIAZ, Comandante Raul Arguelles: Chief of the D. I. R. (Department of Rebel Investigation). I had various indirect contacts with him during the revolution. I want to say here that he was the person who got me released from jail and then I was able to leave Cuba (see page 9, #37 of the questionnaire).

## I - Sobre Sra Elena Alonso

Conociendo a la Sra. Elena Alonso nacida alrededor de 1910, cuando fue a los 15 años por medio de mis amigos Enrique Casuso y José Basulto, ambos artesanos en la isla.

COS: Although this man had had no previous military training, his performance of the skills involved was above satisfactory. He demonstrated leadership potential during the week he performed as the trainee group leader.

If included as a member of a PG training cadre he could handle instructor responsibility in a variety of subjects with minimum preparation. His strengths appear to lie in areas requiring creative, imaginative thought so that he might be used to advantage in staffing a program or preparing training materials.

He exhibited an understanding of clandestine activities and, in my opinion, is one of few possessing the intellect and good judgement to perform well in this area.

This young man is actively cooperative with both staff and trainees, and enjoys their respect and confidence. He speaks little English and appears to like North Americans. He is even tempered and has a good sense of humor.

D/COS: A slightly obese, but strong and active, individual whose manner and bearing inspires friendliness from subordinates and superiors alike. A well educated person, he brings to the group an inquisitive manner and an exceedingly retentive memory. Due to his background and current performance, he would make an excellent instructor. Conversely, his apparent devotion to his country and loyalty to the movement indicate that he be used as an action leader. In either case he would undoubtedly give an excellent performance.

Chief Instructor: Subject has maintained interest throughout the training program and has adapted himself to the instruction in a commendable manner. He was perhaps the real leader of the student faction which remained in training. He is extremely courteous and has an open, friendly smile that covers a very shrewd and calculating mind. While subject has had no experience in the type of training given here, he has made a good showing and has been recognized as one of the leaders. He has the right amount of humor and seriousness to have the respect of those he is leading and the good judgement to complete a complicated assignment. Subject was trainee leader for one week and did an excellent job.

Staff Rating: 8th out of 25.
